## ABOUT GISM

Global Institute of Supply Management (GISM) is the premier professional Institute in Supply Chain Management. Mission of GISM is to **"Empower Professional Excellence in Supply Management"**. GISM is dedicated to the professional activities like Educational Courses, Executive Development Programs, Seminars, Workshops, In-house Training Programs and Consultancy.

## ITC, Geneva and GISM

The International Trade Centre (ITC), Geneva is the focal point in the United Nations for Technical co-operation with developing countries in trade promotion. As an executing agency of the United Nations Development Programme (UNDP), ITC is directly responsible for implementing UNDP financed Projects in developing countries and economics in transition related to trade promotion. GISM is a Network Partner of ITC, Geneva.

## ABOUT ITC'S MODULAR LEARNING SYSTEM

The Modular Learning System (MLS) in International Purchasing & Supply Management is a comprehensive educational & training Course that covers the entire Purchasing & Supply Management. The Course consists of 18 core modules, and allied supplementary modules. This unique concept of Modular Learning System in International Purchasing and Supply Management program was developed by a team of SCM experts for ITC, Geneva. ITC has given it the theme "Buying into Competitiveness".

## ABOUT THE MODULE "Managing Inventory "

Good management of inventories is essential to improving enterprise effectiveness. This workshop focuses on the operational and strategic management of inventories and the role of inventory management in improving the competitiveness of an enterprise. It explains the most important practical aspects associated with inventory management from warehouse design and operations through forecasting requirements and parts variety reduction to evaluating inventory practices and building an inventory management plan of action.

Efficient management of inventories, wherever they accumulate, is an essential part of the reduction of an enterprise's working capital requirements.

At the end of this workshop, the participant will be able to optimise inventory levels, evaluate opportunities to reduce holding costs and variety of supplies, understand how to achieve internal and external customer service levels, plan to minimise error rates and work to achieve international quality and traceability standards.

## The Workshop will cover below 6 units.

1. Introduction
2. Setting the stage
3. Inventory planning
4. Inventory operations
5. Warehouse planning and system
6. Presentation skills
